

Ameer Ogirimah

AI - SOFTWARE ENGINEER

OBJECTIVE

I am passionate about creating innovative and user-friendly software that enhances the quality and accessibility of broadcast media. I am looking for a challenging and rewarding role where I can apply my skills and learn new technologies in a dynamic and supportive environment.

EXPERIENCE

AI SPECIALIST (FREELANCE) @ OUTLIER AI

Jan 2024 - Present

- Testing and evaluating the quality of AI-generated code (in Python, JavaScript, SQL, C, C++, and C#).
- Evaluating the efficiency of AI model integration with TECH tools for extending the model's capabilities.
- Worked on some discrete projects geared towards training generative AI models.

IT SUPPORT STAFF @ UNIVERSITY OF HERTFORDSHIRE

Sep 2023 – Feb 2024

- Key Responsibilities:

Provided first-line IT support to students across various academic departments.

Troubleshoot hardware and software issues, including operating systems, applications, and network connectivity.

Assisted students with account management, password resets, and access control.

Maintained and updated IT equipment and infrastructure.

Participated in team projects and initiatives to improve IT services.

- Achievements:

Team Recognition: Nominated for the Vice Chancellor's Team of the Year Award for outstanding performance and contributions to student success.

Individual Achievement: Recognized by students for exceptional empathy, patience, and effectiveness in resolving IT-related issues.

Efficiency: Consistently met or exceeded service level agreements, ensuring timely and efficient support to students.

Hatfield, Hertfordshire, UK

ABOUT ME

With a background in broadcast engineering and over three years of developing full-stack software, I bring a wealth of experience. My passion extends to Artificial Intelligence, where I am keen on developing impartial machine-learning models. I am currently experimenting with the use of SNN in controlling autonomous vehicles.

EDUCATION

Skills for the Green Transition,
Cambridge Judge Business School.
MSc Artificial Intelligence and
Robotics, University of Hertfordshire.
BEng Telecommunication
Engineering, FUT Minna, 2014.

SKILLS

Python

Machine Learning

C++

Prompt Engineering

JavaScript

GCP and AWS

PostgreSQL

SQL

SENIOR BROADCAST ENGINEER

Dec 2017 – Sep 2022

- Implemented radio data system across all three stations' platforms, thereby increasing engagement with listeners.
- Was a crucial member of a team of fifteen that designed and remodelled all the live studios.
- Installed and maintained broadcast equipment like transmitters, audio processors, audio consoles, servers, audio production workstations etc.

GROUPS

BCS - THE CHARTERED INSTITUTE OF IT

Mar 2023 till Present

I volunteer as a committee member at the BCS – Hertfordshire branch.

IEEE MEMBER

Member of the IEEE Computer, Computational Intelligence, and Robotics and Automation Societies.
