

Ameer Ogirimah

AI - SOFTWARE ENGINEER

OBJECTIVE

I am a highly skilled AI and software specialist with proficiency in Python, JavaScript, React, SQL, and media development tools such as FFMpeg. Leveraging my experience in testing, training, and integrating AI models, I thrive in roles that challenge me to innovate and adapt to emerging technologies. With a solid foundation in broadcast engineering, I bring a unique combination of technical programming expertise and broadcasting insights to dynamic environments.

EXPERIENCE

AI SPECIALIST (FREELANCE) @ OUTLIER AI

Jan 2024 - Present

- Testing and evaluating the quality of AI-generated code (in Python, JavaScript, SQL, C, C++, and TypeScript).
- Evaluating the efficiency of AI model integration with tech tools for extending the model's capabilities.
- Worked on some discrete projects geared towards training generative AI models.

INFORMATION TECHNOLOGY SUPPORT AT THE UNIVERSITY OF HERTFORDSHIRE

Sep 2023 – Feb 2024

- Delivered first-line IT support to students across diverse academic departments, ensuring seamless access to essential digital resources. Responsibilities included resolving issues with Microsoft 365 accounts, university website access, and the Canvas teaching and learning platform. Additionally, provided expert assistance in installing and configuring academic software such as MATLAB, AutoCAD, and CoppeliaSim, while addressing internet connectivity challenges on both mobile devices and PCs.
- Team Recognition: Nominated for the Vice Chancellor's Team of the Year Award for outstanding performance and contributions to student success.
- Individual Achievement: Recognized by students for exceptional empathy, patience, and effectiveness in resolving IT-related issues.
- Efficiency: Consistently met or exceeded service level agreements, ensuring timely and efficient student support.

(London, UK)

EDUCATION

M.Sc. AI and Robotics (Distinction),
University of Hertfordshire, Aug 2024.

B.Eng. Telecommunication
Engineering (4.08/5.0), FUT Minna,
2014.

Santander Open Academy |
Business for All, Harvard Business
Publishing, Nov 2024.

Skills for the Green Transition,
Cambridge Judge Business School,
Dec 2023.

SKILLS

Python

R

Machine Learning

C++

Prompt Engineering

JavaScript

AWS Bedrock

AWS CloudFormation

AWS Code Pipeline

GCP

PostgreSQL

SQL

SENIOR BROADCAST ENGINEER AT STEAM AND GLOBE COMMUNICATION LIMITED

Dec 2017 – Sep 2022

- Developed and maintained Python Scripts to automate system diagnostics, reducing audio noise source-finding time by 50%.
- Engineered and troubleshooted complex real-time IP-based signal routing systems, ensuring 99.99% uptime.
- Installed and maintained broadcast equipment like Transmitters, Audio Processors, Audio Consoles, Servers, Audio Production Workstations, Internet Routers and Switches, etc.
- Setup and maintenance of power equipment like the Uninterrupted Power Supply (UPS) and Automatic Voltage Regulator (AVR).

BROADCAST ENGINEER AT GOTEL COMMUNICATION LTD

May 2015 – Apr 2016

- Installed and configured a Tri-caster studio workstation.
- Operated and maintained studio and transmission systems.
- Setup and configuration of Camera Control Units, Video Switchers, Video Routers, Cameras and Audio Consoles
- Termination and connection of XLR cables, coaxial cables (BNC, F, and 7/16 DIN connectors)

GROUPS

BCS MEMBERSHIP

Jan 2023 to date

- Membership Secretary (BCS Hertfordshire)

IEEE MEMBERSHIP

Dec 2021 to date

- IEEEExtreme 17.0 Ambassador
- Member of the IEEE Computer Society
- Member of the IEEE Computational Intelligence Society
- Member of the IEEE Robotics and Automation Society
